[SYNTHRA GmbH – Albert-Einstein-Ring 21 – D-22761 Hamburg](#)

Chemist/Chemical Engineer (f/m/d)

Synthra GmbH is an internationally established company specializing in the development of equipment for the synthesis of radiopharmaceuticals. Since 2008 Synthra offers knowledge and experience from over 35 years in radiopharmaceutical production, quality control and laboratory automation to a worldwide clientele. Our office is located in the west of Hamburg. To strengthen our team, we are looking for a dedicated employee with a good technical background for the development, maintenance and installation of our products.

You can expect a wide range of challenges:

- Willingness to perform worldwide maintenance and installation of automated synthesis equipment
- Cooperation in the training of customers
- Customer support and consulting for German and international customers
- Communication with international customers in English
- Repairs and maintenance in our workshop in Hamburg

Your profile:

- Completed studies in chemistry or related field (diploma/master)
- Good knowledge in analytics using HPLC and GC
- Very good knowledge of English
- Willingness to engage in new challenges
- High technical comprehension
- Good user skills in MS-Office
- High willingness to travel
- Good communication skills
- Customer-oriented, confident appearance

We offer:

- Detailed initial training
- A flat hierarchy
- Work in a small and intact team
- Flexible working hours
- Development opportunities
- Fair remuneration
- Free drinks
- Good parking facilities
- A direct connection to the hvv network

We hope that we have aroused your interest.

Should you find yourself in this profile, we would be pleased to receive your complete application documents (CV, cover letter, photo, certificates) with details of your earliest possible starting date by e-mail to bruno.nebeling@synthra.com.

Please note that we can only consider complete application documents.

We look forward to getting to know you.

Dr. Bruno Nebeling
